

MÜLLER VIKTOR PUBLIKÁCIÓS LISTÁJA

Referált tudományos cikkek

1. Müller, V., Marée, A. F. M. & De Boer, R. J. (2001) Release of virus from lymphoid tissue affects human immunodeficiency virus type 1 and hepatitis C virus kinetics in the blood. *J. Virol.* **75**, 2597-2603.
2. Müller, V., Marée, A. F. & De Boer, R. J. (2001) Small variations in multiple parameters account for wide variations in HIV-1 set-points: a novel modelling approach. *Proc. R. Soc. Lond. B. Biol. Sci.* **268**, 235-242.
3. Müller, V., Viguera-Gomez, J. F. & Bonhoeffer, S. (2002) Decelerating decay of latently infected cells during prolonged therapy for human immunodeficiency virus type 1 infection. *J. Virol.* **76**, 8963-8965.
4. Müller, V. & Bonhoeffer, S. (2003) Quantitative constraints on the scope of negative selection. *Trends Immunol.* **24**, 132-135.

Kapcsolódó cikk: Müller, V. & Bonhoeffer, S. (2003) Response to Bandeira and Faro: Closing the circle of constraints. *Trends Immunol.* **24**, 173-175.
5. Bonhoeffer, S., Funk, G. A., Günthard, H. F., Fischer, M. & Müller, V. (2003) Glancing behind virus load variation in HIV-1 infection. *Trends Microbiol.* **11**, 499-504.
6. Bretscher, M. T., Althaus, C. L., Müller, V. & Bonhoeffer, S. (2004) Recombination in HIV and the evolution of drug resistance: for better or for worse? *Bioessays*, **26**, 180-188.
7. Müller, V. & Bonhoeffer, S. (2005) Guanine-adenine bias: a general property of retroviral genomes that is unrelated to host-induced hypermutation. *Trends Genetics*, **21**, 264-268.
8. Müller, V., Ledergerber, B., Perrin, L., Klimkait, T., Furrer, H., Telenti, A., Bernasconi, E., Vernazza, P., Günthard, H. F., Bonhoeffer, S., and the Swiss HIV Cohort Study. (2006) Stable virulence levels in the HIV epidemic of Switzerland over two decades. *AIDS*, **20**, 889-894.
9. Müller, V. & De Boer, R. J. (2006) The integration hypothesis: an evolutionary pathway to benign SIV infection. *PLoS Pathog* **2(3)**, e15.
10. Huigen, M. C., de Graaf, L., Eggink, D., Schuurman, R., Müller, V., Stamp, A., Stammers, D. K., Boucher, C. A. & Nijhuis, M. (2007) Evolution of a novel 5-amino-acid insertion in the beta3-beta4 loop of HIV-1 reverse transcriptase. *Virology*, **364**, 395-406.
11. Bartha, I., Simon, P. & Müller, V. (2008) Has HIV evolved to induce immune pathogenesis? *Trends Immunol.* **29**, 322-328.
12. Sloot, P. M., Coveney, P. V., Ertaylan, G., Müller, V., Boucher, C. A. & Bubak, M. (2009) HIV decision support: from molecule to man. *Phil Trans R Soc A* **367**, 2691-2703.
13. Müller, V., Maggiolo, F., Suter, F., Ladisa, N., De Luca, A., Antinori, A., Sighinolfi, L., Quiros-Roldan, E., Carosi, G. & Torti, G. (2009) Increasing Clinical Virulence in Two Decades of the Italian HIV Epidemic. *PLoS Pathog* **5(5)**, e1000454.

14. Müller, V., von Wyl, V., Yerly, S., Böni, J., Klimkait, T., Bürgisser, P., Ledergerber, B., Günthard, H. F., Bonhoeffer, S. and the Swiss HIV Cohort Study (2009) African descent is associated with slower CD4 decline in treatment-naïve patients of the Swiss HIV Cohort Study. *AIDS* **23**, 1269–1276.
15. Sousa, J. D. de, Müller, V., Lemey, P. & Vandamme, A-M. (2010). High GUD incidence in the early 20th century created a particularly permissive time window for the origin and initial spread of epidemic HIV strains. *PLoS ONE* **5**(4): e9936.
16. Frentz, D., Boucher, C. A., Assel, M., De Luca, A., Fabbiani, M., Incardona, F., Libin, P., Manca, N., Müller, V., Nualláin, B. Ó., Paredes, R., Prosperi, M., Quiros-Roldan, E., Ruiz, L., Sloot, P. M., Torti, C., Vandamme, A-M., Van Laethem, K., Zazzi, M. & van de Vijver, D. A. (2010). Comparison of HIV-1 genotypic resistance test interpretation systems in predicting virological outcomes over time. *PLoS ONE* **5**(7): e11505.
17. Sadiq, S. K., Könnnyü, B., Müller, V. & Coveney, P. V. (2011). Reaction kinetics of catalyzed competitive heteropolymer cleavage. *J Phys Chem B* **115**(37): 11017-27.
18. Herbeck, J. T., Müller, V., Maust, B. S., Ledergerber, B., Torti, C., Di Giambenedetto, S., Gras, L., Günthard, H. F., Jacobson, L. P., Mullins, J. I. & Gottlieb, G. S. (2012). Is the virulence of HIV changing? A meta-analysis of trends in prognostic markers of HIV disease progression and transmission. *AIDS* **26**(2):193-205.
19. Kožíšek, M., Henke, S., Šašková, K. G., Jacobs, G. B., Schuch, A., Buchholz, B., Müller, V., Kräusslich, H-G., Řezáčová P., Konvalinka, J., Bodem, J. (2012). Mutations in HIV-1 gag and pol Compensate for the Loss of Viral Fitness Caused by a Highly Mutated Protease. *Antimicrob. Agents Chemother.* **56**(8): 4320-4330.
20. Sousa, J. D. de, Alvarez, C., Vandamme, A-M. & Müller, V. (2012). Enhanced Heterosexual Transmission Hypothesis for the origin of pandemic HIV-1. *Viruses* **4**(10): 1950-1983.
21. Könnnyü B, Sadiq SK, Turányi T, Hírmondó R, Müller B, Kräusslich H-G, Coveney PV & Müller V. (2013). Gag-Pol Processing during HIV-1 Virion Maturation: A Systems Biology Approach. *PLoS Comput Biol* **9**(6): e1003103. doi:10.1371/journal.pcbi.1003103.
22. Bartha I, Carlson JM, Brumme CJ, McLaren PJ, Brumme ZL, John M, Haas DW, Martinez-Picado J, Dalmau J, López-Galíndez C, Casado C, Rauch A, Günthard HF, Bernasconi E, Vernazza P, Klimkait T, Yerly S, O'Brien SJ, Listgarten J, Pfeifer N, Lippert C, Fusi N, Kutalik Y, Allen TM, Müller V, Harrigan PR, Heckerman D, Telenti A, Fellay J (2013). A genome-to-genome analysis of associations between human genetic variation, HIV-1 sequence diversity, and viral control. *eLife* **2**: e01123.
23. Bartha I, Assel M, Sloot PMA, Zazzi M, Torti C, Schülter E, De Luca A, Sönnnerborg A, Abecasis AB, Van Laethem K, Rosi A, Svärd J, Paredes R, van de Vijver DAMC, Vandamme A-M & Müller V (2013). Superinfection with drug-resistant HIV is rare and does not contribute substantially to therapy failure in a large European cohort. *BMC Infectious Diseases* **13**:537.
24. Apari P, Sousa, J. D. de & Müller V (2014). Why Sexually Transmitted Infections Tend to Cause Infertility: an Evolutionary Hypothesis. *PLoS Pathog.* **10**(8): e1004111.
25. Rózsa L, Apari P & Müller V (2015). From bad to worse: can our microbiome turn against us when we are old or seriously ill? *Biology Direct* **10**: 3.
26. Ferdinandy B, Mones E, Vicsek T & Müller V (2015). HIV competition dynamics over sexual networks: first comer advantage conserves founder effects. *PLoS Comput Biol* **11**(2): e1004093.
